ELIXIR Compute Cloud
at **UniPD**

The ELIXIR compute cloud - **ECC** at UniPD - is a CPU and GPU compute cloud for scientific computing

ECC at UniPD is a **cloud platform** built on OpenHPC, capable of handling workloads using up to 500+ CPUs / 4 GPUs / 2+ TB RAM / 300+ TB storage

Project partners:
DEI, DFA/INFN, DiBio, DM, DSB, DSF
